Torah Portion: Noach

DEAR FRIENDS,

In times of adversity, the Torah becomes our sanctuary of strength. Noach and his family found refuge within the ark (Taiva) during the flood, illustrating the fortitude of our faith. The word "Taiva," means "word," reminds us that a haven of serenity amid chaos is woven through the threads of words of the Torah. We learn from the Torah that G-d brought the flood upon the world due to the prevalence of "Chamas" – a term that encompasses robbery, disrespect for human life, and idolatry. As we navigate today's tumultuous world, we are reminded of the importance of upholding these values and teachings in our lives.

Through the study and practice of the Torah, we have the power to create an ark of protection for ourselves and our families. Just as Noach and his family found safety within the ark, we can find refuge within the teachings of the Torah. Let us come together in the spirit of learning and understanding, drawing strength from our faith to weather any storm
